

Bodega Overview

Bodega is an end-to-end string management solution that empowers Nike engineers and producers across the globe to easily internationalize their apps.

With Bodega, you can:

- Improve accuracy and relevancy for Nike's international users
- Reduce the time-to-market for new global feature releases and new experiences

TIP: Head over to the [Bodega Sharepoint Site](#) for comprehensive documentation.

Bodega Features

- Simple workflow to provide web/mobile apps with localized strings
- Create, translate, and update strings with Cloud-based APIs **at build time**
- Store and manage different variants of strings
- Follow Globalization best practices by separating strings, configurations, URLs, fonts, and screenshots

Who Uses Bodega?

Here are some examples of folks who might use Bodega (note: this is a partial list):

- Globalization Operations
- Developers
- Product Managers
- UX Designers
- Marketing Technology
