# Merchandised Product Field Reference

Last Updated: 05/24/2018

This guide describes the product and value-added service merchandising codes flowing from Prodigy (the system of record) to the Merchandised Product API.

See the [Global Reference Guide](#) for the list of countries, languages, channels and brands that the NIKE APIs support.

## Status Codes

Listed below are the product and value-added service status codes.

| Status Code     | Description                                                    |
|-----------------|----------------------------------------------------------------|
| <b>ACTIVE</b>   | Fully merchandised and ready for purchase                      |
| <b>INACTIVE</b> | Incompletely merchandised and not ready for purchase           |
| <b>HOLD</b>     | Fully merchandised but not available for purchase              |
| <b>CANCEL</b>   | Never manufactured or manufactured but never made it to market |
| <b>CLOSEOUT</b> | No longer available for purchase                               |

## Merchandising Groups

Listed below are the merchandising group codes and the countries included within each NIKE sales geography.

| CN    | EU             | JP    | US            | XP             |
|-------|----------------|-------|---------------|----------------|
|       | Austria        |       |               |                |
|       | Belgium        |       |               |                |
|       | Czech Republic |       |               |                |
|       | Denmark        |       |               |                |
|       | Finland        |       |               |                |
|       | France         |       |               |                |
|       | Germany        |       |               |                |
|       | Greece         |       |               |                |
|       | Hungary        |       |               |                |
| China | Ireland        | Japan | United States | for future use |
|       | Italy          |       |               |                |
|       | Luxembourg     |       |               |                |
|       | Netherlands    |       |               |                |
|       | Poland         |       |               |                |
|       | Portugal       |       |               |                |
|       | Slovenia       |       |               |                |
|       | Spain          |       |               |                |
|       | Sweden         |       |               |                |
|       | United Kingdom |       |               |                |

| Gender Code  | Description  |
|--------------|--------------|
| <b>MEN</b>   | Male adult   |
| <b>WOMEN</b> | Female adult |
| <b>BOYS</b>  | Male child   |

| Gender Code  | Description  |
|--------------|--------------|
| <b>GIRLS</b> | Female child |
| <b>KIDS</b>  | Unisex child |

## Product Types

Listed below are the product type codes.

| Style Code                | Description                                                                                                                 |
|---------------------------|-----------------------------------------------------------------------------------------------------------------------------|
| <b>FOOTWEAR</b>           | Product that covers the foot                                                                                                |
| <b>APPAREL</b>            | Product that covers the body                                                                                                |
| <b>EQUIPMENT</b>          | Product that is core to playing a sport such as shin guards or soccer ball                                                  |
| <b>ACCESSORIES</b>        | Product that is not core to playing a sport such as sunglasses or a water bottle                                            |
| <b>PHYSICAL_GIFT_CARD</b> | Physical, pre-loaded debit card shipped to the consumer                                                                     |
| <b>DIGITAL_GIFT_CARD</b>  | Electronic, pre-loaded debit card sent electronically to the consumer                                                       |
| <b>VOUCHER</b>            | Credit given to a consumer after returning a product that the consumer uses to purchase other products and services         |
| <b>GIFT_WRAP</b>          | Value-added service where product is wrapped for gift purposes                                                              |
| <b>GIFT_MESSAGE</b>       | Value-added service where a gift message is packaged with the product                                                       |
| <b>JERSEY_ID</b>          | Team jersey product bought in bulk for a team with customizable team number, emblem and name. This is not a NIKEiD product. |

## Style Types

Listed below are the product style codes.

| Style Code                 | Description                                                                                                         |
|----------------------------|---------------------------------------------------------------------------------------------------------------------|
| <b>INLINE</b>              | Non-customizable, saleable product                                                                                  |
| <b>NIKEID</b>              | Customizable, saleable product built to order per consumer specifications such as color, badge, material etc.       |
| <b>VALUE_ADDED_SERVICE</b> | Saleable service consumer purchases as a product add-on such as custom embroidering, gift wrap and gift messaging   |
| <b>GIFT_CARD</b>           | Physical or electronic debit card consumer uses to purchase products and services                                   |
| <b>VOUCHER</b>             | Credit given to a consumer after returning a product that the consumer uses to purchase other products and services |

## Publish Types

Listed below are the publish type codes.

| Publish Code  | Description                                                                                                                                           |
|---------------|-------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>FLOW</b>   | Product that is available to all Nike consumers for purchase when merchandising is complete and inventory is available                                |
| <b>LAUNCH</b> | Product that is available for purchase by certain Nike consumers for a discrete time period when merchandising is complete and inventory is available |
