

CART & CHECKOUT OVERVIEW

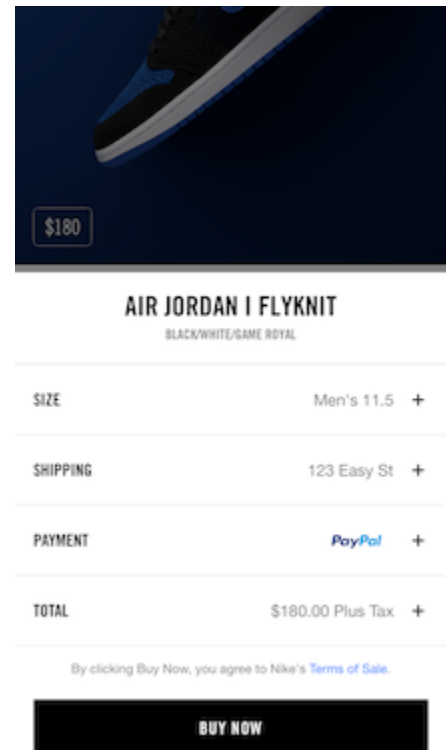

Learn how to use Cart, Checkout, and Payment to enable the purchase of Nike products and services in your app.

Consumers purchase quickly and easily using Nike Cart, Checkout, and Payment

Nike builds digital experiences that showcase its premium products and tell amazing stories. Powering those experiences are Nike Cart, Checkout, and Payment, built to handle the massive scale of global e-commerce.

Adding Cart, Checkout, and Payment To Your App or Experience

The consumer finds a Nike product that they love in your app. What happens next? Step through the check list below to incorporate Cart, Checkout, and Payment capabilities into your experience.

- 1 **Manage a consumer's shopping cart and get product pricing (<https://developer.niketech.com/nde-docs/doc/commerce/checkout/use-carts.html#cart>)**
- 2 **Manage a consumer's wishlist (member/employee only) of products and services (<https://developer.niketech.com/nde-docs/doc/commerce/checkout/use-wishlists.html>)**
- 3 **Review a consumer's cart for checkout (<https://developer.niketech.com/nde-docs/doc/commerce/checkout/use-carts.html#step-4-get-a-cart-summary>)**

- 4 Get available shipping options (<https://developer.nike.com/nde-docs/doc/commerce/checkout/use-checkout.html#shipping-options>) or get available fulfillment offerings (<https://developer.nike.com/nde-docs/doc/commerce/checkout/use-fulfillment-offerings.html>)
See [Which API Version Should I Use](#) for more details.
- 5 Validate a shipping address (<https://developer.nike.com/nde-docs/doc/commerce/checkout/use-checkout.html#shipping-address-validation>)
- 6 Validate a checkout for fulfillment (<https://developer.nike.com/nde-docs/doc/commerce/checkout/use-checkout.html#checkout-preview>)
- 7 Get available payment methods (<https://developer.nike.com/nde-docs/doc/commerce/payment/use-payment.html#listing-and-validating-payment-options>)
- 8 Validate payment (<https://developer.nike.com/nde-docs/doc/commerce/payment/use-payment.html#payment-preview>)
- 9 Submit a checkout for fulfillment (<https://developer.nike.com/nde-docs/doc/commerce/checkout/use-checkout.html#checkout-submit>)

Which API Version Should I Use?

The Nike shopping experience involves several APIs. Your app or experience implements one of two fulfillment flows, legacy or omni-channel.

The legacy flow allows consumers to choose how quickly they want all products delivered to a shipping address.

The omni-channel flow expands the fulfillment options to include ship, digital delivery, and pick up for each item based on consumer location, giving consumers much more flexibility in how, when, and where they can receive Nike products.

The APIs required for the two fulfillment flows are listed below.

Table 1: Legacy vs. omni-channel Required APIs

Legacy	Omni-channel
Carts V2	Carts V2
Shipping Options V1	Fulfillment Offerings V1
Cart Reviews V1	Cart Reviews V2
Payment Options V2	Payment Options V3
Checkout Previews V2	Checkout Previews V3
Payment Preview V2	Payment Preview V3

Legacy	Omni-channel
Checkouts V2	Checkouts V3
