Merchandised Product Field Reference

Last Updated: 05/24/2018

This guide describes the product and value-added service merchandising codes flowing from Prodigy (the system of record) to the Merchandised Product API.

See the [Global Reference Guide \(https://nde-devportal-docs.niketech.com/doc/commerce/reference/global.html \)](https://nde-devportal-docs.niketech.com/doc/commerce/reference/global.html) for the list of countries, languages, channels and brands that the NIKE APIs support.

Status Codes

Listed below are the product and value-added service status codes.

Status Code	Description
ACTIVE	Fully merchandised and ready for purchase
INACTIVE	Incompletely merchandised and not ready for purchase
HOLD	Fully merchandised but not available for purchase
CANCEL	Never manufactured or manufactured but never made it to market
CLOSEOUT	No longer available for purchase
