

# CUSTOMIZATION OVERVIEW

---

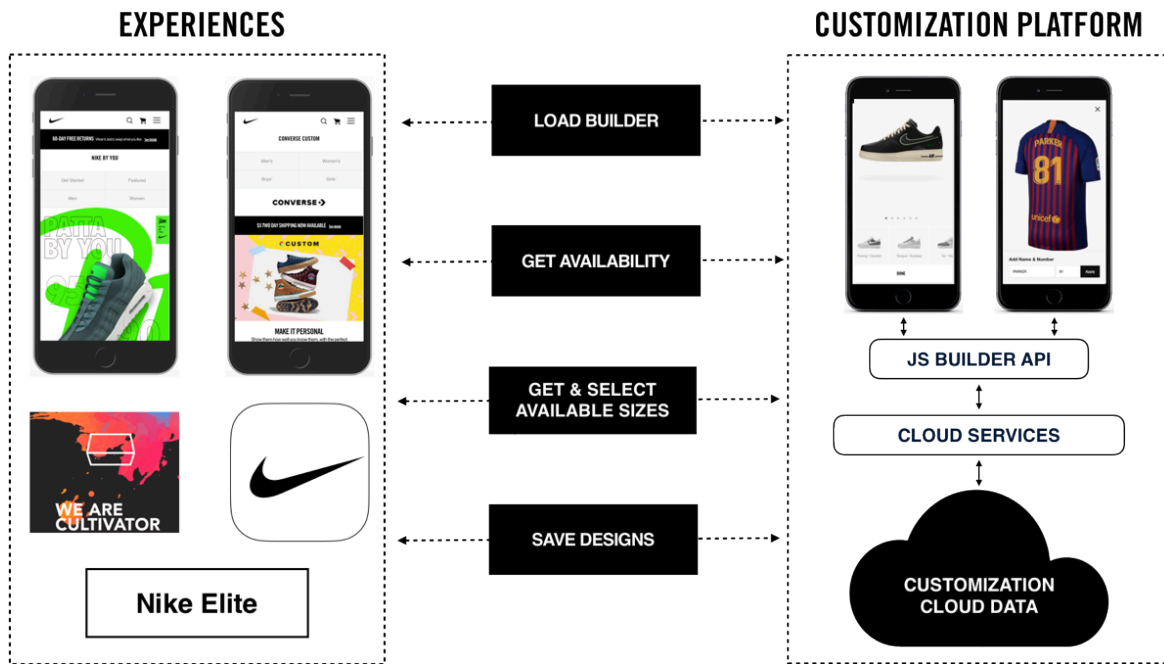

## Powering the Co-Creation Generation

Add product customization to your experience using the [Customization Experience Platform \(CXP\)](https://developer.niketech.com/nde-docs/doc/commerce/customization/use-customization.html) ( <https://developer.niketech.com/nde-docs/doc/commerce/customization/use-customization.html> ).

## Integration Overview

[CXP \( https://developer.niketech.com/nde-docs/doc/commerce/customization/use-customization.html \)](https://developer.niketech.com/nde-docs/doc/commerce/customization/use-customization.html) is set of APIs and Components that collectively unlock your consumers' ability to [design \( https://developer.niketech.com/nde-docs/doc/commerce/customization/use-customization.html#show-a-design-experience \)](https://developer.niketech.com/nde-docs/doc/commerce/customization/use-customization.html#show-a-design-experience) and [buy \( https://developer.niketech.com/nde-docs/doc/commerce/customization/use-customization.html#enable-purchasing \)](https://developer.niketech.com/nde-docs/doc/commerce/customization/use-customization.html#enable-purchasing) customized products.

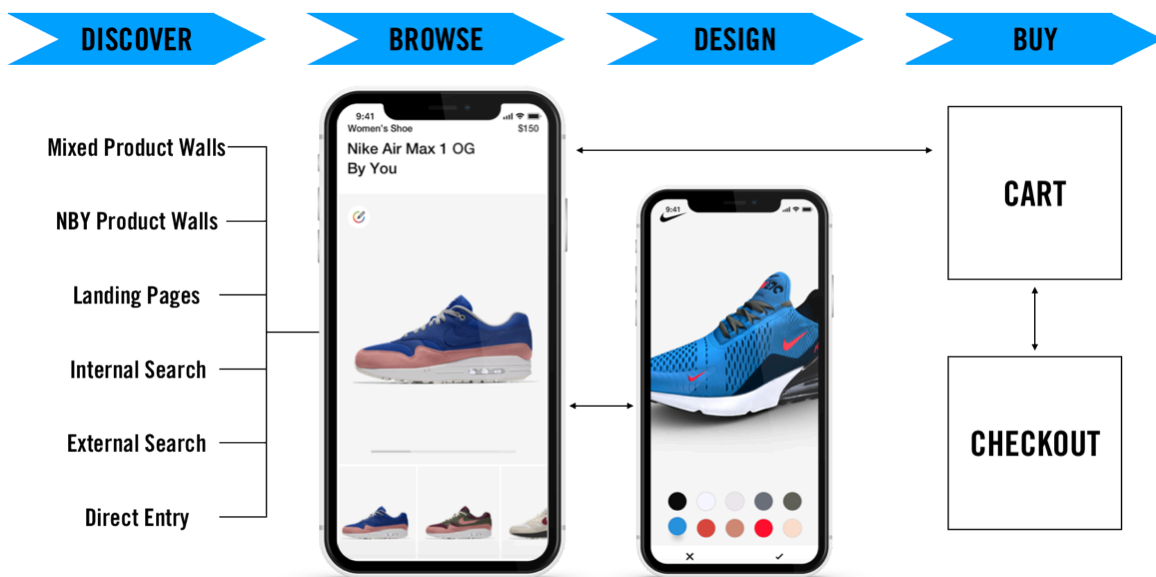

## Use Cases

Here are some use cases for integrating CXP capabilities into your experience.

|                                                                                                                                                                                                                                                                                                        |                                                                                                                |
|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|----------------------------------------------------------------------------------------------------------------|
| <p>✓ <b>Show Customizable Products</b> ( <a href="https://developer.niketech.com/nde-docs/doc/commerce/customization/use-customization.html#show-customizable-products">https://developer.niketech.com/nde-docs/doc/commerce/customization/use-customization.html#show-customizable-products</a> )</p> | <p>Which products are customizable?<br/>How do I start designing?</p>                                          |
| <p>✓ <b>Show a Design Experience</b> ( <a href="https://developer.niketech.com/nde-docs/doc/commerce/customization/use-customization.html#show-a-design-experience">https://developer.niketech.com/nde-docs/doc/commerce/customization/use-customization.html#show-a-design-experience</a> )</p>       | <p>What customization options are available? What does my design look like? How much will it cost?</p>         |
| <p>✓ <b>Enable Purchasing</b> ( <a href="https://developer.niketech.com/nde-docs/doc/commerce/customization/use-customization.html#enable-purchasing">https://developer.niketech.com/nde-docs/doc/commerce/customization/use-customization.html#enable-purchasing</a> )</p>                            | <p>Is the product available for purchase? How do I select a size? When would my design be delivered to me?</p> |

**TIP:** See [Adding Customization to Your Experience \( https://developer.niketech.com/nde-docs/doc/commerce/customization/use-customization.html \)](https://developer.niketech.com/nde-docs/doc/commerce/customization/use-customization.html) for full integration details.

## User Journey

## What We Provide

|         |                                                                                                   |                                                                                                                                                                                                |
|---------|---------------------------------------------------------------------------------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| BROWSE  | Supported        | <ul style="list-style-type: none"> <li>Factory capacity &amp; delivery messaging</li> <li>Available sizes</li> <li>Product imagery</li> </ul>                                                  |
|         | Not Supported    | <ul style="list-style-type: none"> <li>Base product data &amp; copy</li> <li>Non-Builder-based imagery</li> </ul>                                                                              |
| DESIGN  | Supported        | <ul style="list-style-type: none"> <li>Flexible design options</li> <li>Full rendering of consumer's changes</li> <li>Local storage of consumer's designs</li> </ul>                           |
