

PRODUCT FEEDS OVERVIEW

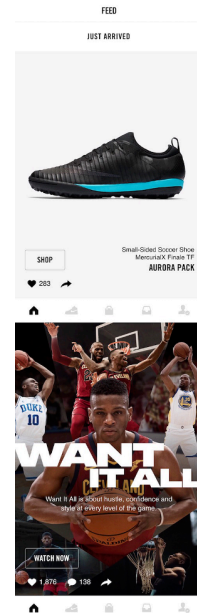

Great apps like SNKRS, Nike+, Nike Training Club and Nike Running Club showcase Nike products and make them available for purchase. But how is all that visual content pulled together? It's done with **Product Feeds** (<https://developer.niketech.com/nde-docs/doc/commerce/product/use-product-feeds.html>) and you can use it, too.

Use Product Feeds to tell amazing Nike stories with digital product data and authored content.

Product Feeds is simple and easy to use: it does all the heavy lifting of gathering the content for you.

Use Cases

Step through the Use Cases below to incorporate Product Feeds capabilities into your experience.

✓ **Get all product threads for a channel, SEO slug, style-color, size, gender, athlete, keyword, and more.** (<https://developer.niketech.com/nde-docs/doc/commerce/product/use-product-feeds.html#get-a-list-of-product-threads>)

✓ **Get a specific thread by its ID.** (<https://developer.niketech.com/nde-docs/doc/commerce/product/use-product-feeds.html#get-a-product-thread-by-id>)
